Mother’s Day Gifts
We hope all of our Mums enjoyed their special day and the gifts and cards made for them by the students. We hope your potted bulbs are thriving. We can’t wait to see what flowers they will produce.

Naplan
Students in Years 3 and 5 completed their Naplan tests over three days last week. They all tried their best!

Netball Gala Day
On Monday we travelled into Lake Cargelligo for a fun day of netball skills and games at the recreation grounds. All the students had a fantastic day and learnt lots of new skills. This was organised by our Active After Schools team.

Special Lunch
Thank you to Helen Cooper for providing us with a special lunch of hot dogs and chocolate cake today.

Reminders
*Monday 26th CSIRO visiting our school.
*Friday 30th Reconciliation Day at St. Francis Xavier School and LLPSSA cross country at Tullibigeal for participating students
*Please remember safety is important when dropping off or picking up students at school. This includes parking in the correct way so students are getting in or out of cars safely on the kerb side.
Writing

Here is a small selection of the writing activities the students have been busy with over the last two weeks.

My Powerful Wish

If I could have any power I would like to be able to have strength.
First, to help farmers lift heavy things like stumps, trees and machinery out of holes.
Next, to help builders lift metal poles from one place to another.
Last, just for fun so then I could help people.
Clearly I would like to have strength.
Written and published by Dejannah

My Powerful Wish

If I could have any super power I would like to be able to speed fly.
First, I would never be late.
Next, I would never have to go on the long bus ride.
Last, I would race the birds.
Clearly I would like to speed fly.
Written and published by Madalyn

My Powerful Wish

If I could have any power I would like to be able to make fire.
First, I would make fire to keep me warm.
Next, I would burn the trees down so dad can sow the crop.
Last, I would burn the tip.
Clearly, I would like to be able to make fire.
Written and published by Adam

My Powerful Wish

If I could have any power I would like to be able to have ice powers that would never melt.
First, I would make a big castle out of ice that I could live in.
Next, I would make a statue of myself and I would make an ice dress that would never melt.
Last, I could make people happy by keeping them cool and letting them ice skate in the summer.
Clearly I would like to have ice powers.
